

SPiRiT ELECTRONICS

We Make the
Mission Possible™

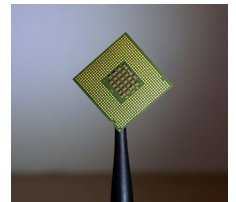

Added Value
Added Service

AWARD-WINNING SERVICES

We are a full turnkey distributor – from wafer sales through value-add, through screening and test, radiation and environmental qualification – delivering authorized, screened, failure-free components.

Our value-added services include SMI, Testing, Design, Contract Manufacturing and End-of-Life Management.

- Electronic component distribution, including passive components, discrete semis, memory, interconnect, RF/Microwave and electro-mechanical devices
- Fulfillment, material planning, material purchasing (full BOM), inventory management, just-in-time delivery, and supply-chain solutions
- Wafer sort, assembly, test, qualification, radiation services, and simple and complex kitting

WE OWN THE QUAL™

Spirit Electronics does in-house testing to qualify our components. We own the lot until our customer receives it, taking full ownership of failures until it's in your hands. So you know that the parts you're receiving are 100% problem-free. Guaranteed.

ABOUT SPIRIT

Spirit Electronics is a veteran-owned, woman-owned value-added supplier of high reliability components and superior supply chain solutions.

Our engineers are experienced in high-speed digital, RF, mixed signal, analog and SOC test-program development. Our team will work seamlessly with you and your team to help meet your market challenges.
